A subtraction problem using apples. The first row shows 7 apples (3 in the top row, 4 in the bottom row). A minus sign follows. The second row shows 2 apples (1 in the top row, 1 in the bottom row). An equals sign follows, leading to an empty rectangular box for the answer.

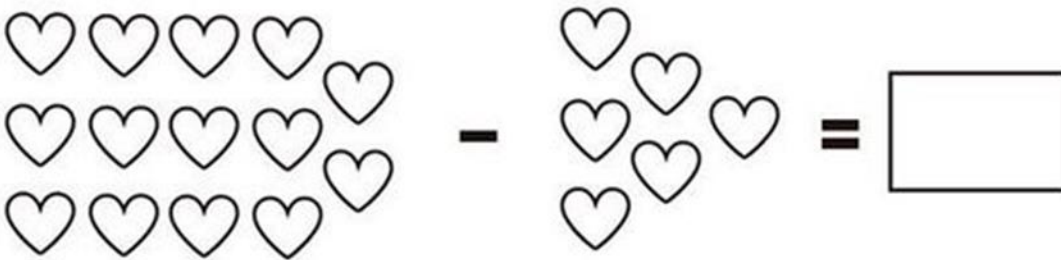

A subtraction problem using teddy bears. The first row shows 10 teddy bears (5 in the top row, 5 in the bottom row). A minus sign follows. The second row shows 4 teddy bears (2 in the top row, 2 in the bottom row). An equals sign follows, leading to an empty rectangular box for the answer.

A subtraction problem using pears. The first row shows 6 pears (3 in the top row, 3 in the bottom row). A minus sign follows. The second row shows 2 pears (1 in the top row, 1 in the bottom row). An equals sign follows, leading to an empty rectangular box for the answer.

A subtraction problem using hearts. The first row shows 13 hearts (10 in the top row, 3 in the bottom row). A minus sign follows. The second row shows 5 hearts (3 in the top row, 2 in the bottom row). An equals sign follows, leading to an empty rectangular box for the answer.

A subtraction problem using trophies. The first row shows 6 trophies (3 in the top row, 3 in the bottom row). A minus sign follows. The second row shows 2 trophies (1 in the top row, 1 in the bottom row). An equals sign follows, leading to an empty rectangular box for the answer.

Pie katra zīmējuma ir vajadzīgie burti, bet tie nav pareizā secībā.  
Sakārto tos pareizi un ieraksti lodziņos virs atbilstošā zīmējuma!

## Burtu ceļš

Izkrāso latviešu valodas burtus!
